**Exemption 6 applies to the entire
document for redactions**

[REDACTED]

Thank you for your comments regarding the Williamsburg Receiving and Storage draft groundwater permit. I am writing to notify you that a public meeting will be held April 24, 2001, at 7:00 P.M. at the Whitewater Township Hall. A copy of the formal public notice for the meeting is enclosed.

The purpose of the meeting will be to explain the groundwater discharge permit, and to update the public on the Surface Water Quality and wetlands issues. Briefly the purpose of the groundwater discharge permit is to discharge cherry process water onto fields near the Williamsburg plant. Limits are set in the permit to allow discharge of water that meets treatment standards. In addition, limits on the application rate are set so that soils are not saturated, and runoff should not occur from the fields.

Public comment regarding the groundwater permit has been extended to April 25 in order to accommodate the discussion that may occur at the meeting. For further information, feel free to attend the meeting. If you have any additional questions after the meeting, feel free to contact me.

Sincerely,

Janice Lee Heuer
Environmental Engineer
Waste Management Division
231-755-3960, Extension 6203
